

„SPLIT“ TYPE SYSTEMS

NØRDIS NOVA air conditioners

DC-INVERTER

Quieter and more powerful;

Efficient operation when the outdoor temperature drops to **-25°C**;

Ecological R32 refrigerant;

Energy class **A+++/A++**;

3 year warranty;

Subtle design **white** or **black** panel with hidden LED screen;

USB-WIFI;

Gentle cool wind blades;

Multifunctional and photocatalytic filters;

Built in **LED UVC and an ionizer** on the evaporator, it kills bacteria by damaging their DNA.

„SPLIT“ TYPE SYSTEMS

NØRDIS ORION PRO air conditioners

DC-INVERTER

Efficient operation when the outdoor temperature drops to **-25°C**;

Ecological R32 refrigerant;

Energy class **A++/A+**;

3 year warranty;

Stylish panel with hidden LED display;

USB-WIFI;

Gentle cool wind blades;

Multifunctional and photocatalytic filters;

Built in **LED UVC** on the evaporator, it kills bacteria by damaging their DNA.

NØRDIS console conditioners

Efficient heating **UP TO -20°C.**

Effective cooling **UP TO 50°C.**

Direction for **AIR FLOW CAN BE IN TWO PATTERNS:** both up and down or up only.

The downward air outlet design allows hot air to be dispersed across the floor when the unit is in heating mode to greatly **IMPROVE HEATING PERFORMANCE.**

Nordis's unique large centrifugal fan blade eliminates unnecessary noise and allows for smooth operation.

Model	Cooling capacity, kW	Heating capacity, kW	Refrigerant liquid pipe	Retail price, EUR without VAT**

NØRDIS cassette air conditioners

Efficient heating **UP TO -20°C**.

Effective cooling **UP TO 50°C**.

BIONIC PRINCIPLE optimum aerodynamic performance is achieved, resulting in a significant reduction in noise levels.

The unique design of the airflow louvre with DC fan allows the cool air to spread in **360° DIRECTIONS**.

Thanks to **INSIGHT SENSORIC** intensive cooling will only start when the room is occupied.

When you switch the unit back on, the airflow louvres will return to their **PREVIOUS POSITION**. The cooling settings are the same every time.

Heating at -20°C ambient with heating chassis and electric heating belt.

NØRDIS floor-ceiling air conditioners

Efficient heating **UP TO -20°C**.

Effective cooling **UP TO 50°C**.

3D AIRFLOW. The unit has an automatic horizontal and vertical air distribution function to ensure even airflow.

4-WAY AIR INTAKE helps circulate the air throughout the room, keeping it clean and maintaining an even temperature.

During heating, the air is directed downwards and distributed over the entire floor area. This improves **HEATING EFFICIENCY**.

Heating at -20°C ambient with heating chassis and electric heating belt.

NØRDIS ducted air conditioners

Efficient heating **UP TO -20°C**.

Effective cooling **UP TO 50°C**.

COMPACT SIZE ESPECIALLY LIGHT indoor unit is almost 20% lighter and 12.5% smaller than a conventional ducted air conditioner.

Unique **GOLD COATING ON THE HEAT EXCHANGER BLADES** is resistant to corrosive agents. It also prevents the growth of bacteria in the unit.

EASY REMOVAL AND INSTALLATION OF THE FILTER at the back of the indoor unit for easy maintenance of the air conditioner.

New **ECCENTRIC FAN**, creates a high static pressure (up to 160Pa), which allows the unit to be installed in larger air supply systems.

Heating at -20°C ambient with heating chassis and electric heating belt.
