FULL-DC INVERTER CENTRAL AIR CONDITIONING SYSTEMS

The global climate is facing severe challenges, in order to achieve the "dual carbon" goal, it has become an urgent issue for enterprises to control carbon emissions effectively, improve energy efficiency and reduce energy consumption.

NØRDIS CAC follows the product design concept of high efficiency, energy saving and low carbon, use high-quality components of efficient refrigeration and leading refrigerating technology, to achieve building air-conditioning systems Integrate the goal of green, reliable and efficient energy management.

# Full-DC Inverter Central air conditioning systems

## PRODUCT LINEUP

### Outdoor Units

25,2-33,5 kW

40-68 kW

73-90 kW

95-100 kW

### Mini VRF Units

8-10 kW

12-16 kW

18-28 kW

### Indoor Units

One-way Cassette

Two-way Cassette

Eight-way Cassette

DC Series Slim Duct

Medium static pressure Duct

High static pressure Duct

Wall mounted

Fresh Air Processing Unit

Ceiling & floor
