

Technical data

Wall mounted buffer tank for Heat Pump

Unit Model		NBT-40SW	NBT-60SW	NBT-80SW	NBT-100SW	NBT-120SW	NBT-140SW
Total tank volume	l	40	60	80	100	120	140
Pipe connections		G 1 1/4"					
Temperature sensor connection		G 3/8"					
Electric heater connection		G 1 1/2"					
Air release valve connection		G 1/2"					
Tank material		steel - inside raw					
Thermal insulation		polyurethane foam					
Thermal insulation thickness	mm	25					
Standby losses ²		34	43	51	60	68	76
External casing material		sheet metal shell covered with powder paint					
Tank operating parameters: Maximum operating pressure Maximum operating temperature		pr = 0,3 MPa tr = 95°C					
Netto weight	kg	22	29	35	40	44	58
Dimensions	mm	Ø470x490	Ø470x645	Ø470x810	Ø470x970	Ø470x1130	Ø470x1290
